

Linking orthopaedics and radiology - The plain film revisited I: The lower limb

17 October 2013

Venue: The British Dental Association
5 CPD credits (applied for)

Learning outcomes:

- To link up the thinking processes between the clinician and the radiologist
- To provide useful information for the referring doctor
- To improve the diagnostic accuracy
- To create meaningful reports
- To understand why the radiologist and the referrer need the radiograph
