

PRIMER COURSE IN DIAGNOSING BONE LESIONS

16th May 2018

VENUE:

Lecture Theatre (Location 9)

Robert Jones & Agnes Hunt Orthopaedic Hospital NHS Trust
Oswestry, Shropshire SY10 7AG

TARGET AUDIENCE:

**All specialities dealing with bone radiographs:
doctors, radiographers, nurses and physiotherapists**

This one day course aims to provide a primer for dealing with non-traumatic bone lesions. Each subject will be introduced with a short overview of typical imaging features, followed by the review of multiple cases of the same pathology in its various guises. The differential diagnosis will be outlined. The course aims to give a grounding in how to approach bone lesions for all specialities looking at bone radiographs. The main emphasis will be in radiographic appearances but other imaging modalities will be included.

The lectures will be delivered by doctors working in a specialist bone tumour centre.

Registration fee: £100
